MEMORANDUM FOR: DDA

FROM: Director of Central Intelligence

How about organizing a "dial your complaint to the CIA" telephone connection. What I have in mind is a recording system whereby any citizen in the entire country could dial a toll-free number and tell us what his complaint was with the CIA. We could then transcribe them, ignore the nuts, and respond by telephone or letter to the genuine ones. It might turn into a considerable effort, but also a relatively easy and safe way to demonstrate our desire to be open and helpful to the U.S. public.
